

Utkarsh Upadhyay

Full Stack Developer (MERN | Next.js | TypeScript)

Lucknow, India

upadhyayutkarsh1614@gmail.com | 9936262305 | LinkedIn | GitHub

Skills

Frontend: HTML, CSS, JavaScript, React.js, Next.js, TypeScript, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, Mongoose

Tools: Git, GitHub, Postman, VS Code

Concepts: MVC Architecture, RESTful API Design, API Integration, Authentication & Authorization, State Management, Responsive Web Design

Experience

Full Stack Developer Intern | Espirit System

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB
- Designed and implemented backend APIs with JWT authentication and role-based authorization
- Optimized database queries and improved application performance, reducing API response time by 25%
- Built reusable and modular components, reducing development time for new features by 30%

Projects

Full Stack Job Portal | React, TypeScript, Node.js, Express, MongoDB

- Built a MERN-based job portal with user and admin roles, managing 100+ job listings
- Designed and implemented 15+ RESTful APIs using Node.js and Express
- Implemented JWT-based authentication and authorization for protected routes
- Integrated React.js frontend with backend APIs, reducing data-fetch latency by 20%

Expense Tracker Application | Next.js, TypeScript, Tailwind CSS

- Developed a full-stack expense tracker using Next.js App Router and Server Components
- Improved SEO and initial page load time by 30% using server-side rendering
- Implemented authentication and CRUD operations using TypeScript

Full Stack Travel Booking Platform | React, Node.js, MongoDB

- A complete travel website where users can search destinations, book hotels/tours, make payments, and manage trips.
- Optimized MongoDB database queries and backend performance, reducing API response time by 30%
- Designed responsive frontend interfaces using React.js and Tailwind CSS, improving mobile usability and page responsiveness by 35%

Education

Bachelor of Technology (B.Tech) – Computer Science Engineering

IMS Engineering College

Expected Graduation: 2026
